Walkers and rollators offer safety, confidence and independence.

Personalize yours with these practical and convenient items:

Cup and cane holders

Using a walker or rollator is a two-handed task. Whether you are taking a stroll from your kitchen to the living room, or doing your daily grocery shopping, storage accessories like cane and cup holders are invaluable. Outfit your walker to fit your needs and enhance the quality of our life.

Bags and pouches

There are stylish pouches and mobility bags available to help you keep all the necessities close by. Most fasten securely to your walker and are easily accessible. Some have pockets for your glasses, the TV remote, your favorite magazines and more. Many styles and colors to choose from!

Baskets

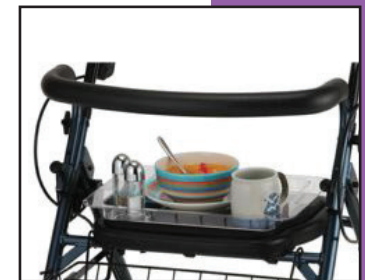

There are so many things you can toss in a basket! Trips to the doctor, grocery shopping, or simply performing daily activities at home are all easier when you have somewhere to 'toss' your stuff!

Trays

Transporting your food from the kitchen to the table can be tricky when you are maneuvering a walker or rollator. A sturdy attachable tray can be just the solution you need to remove this obstacle and enjoy dinnertime.

Walker skis, glides and tips

Skis or glides for the bottom of your walker can help you navigate uneven, carpeted or textured flooring. There are also replacement tips available.

Retail add-on fliers are available through VGM Retail 855.831.8470 and VGM's OTS Marketing Program 888.875.7707.
